

## We're really pleased to announce that Colourpoint Litho Ltd has acquired Beacon! This is great news for all involved and will pave the way for an exciting new era for both companies!

### Will it affect me as a Customer?

In theory not at all, you should only see the benefits! You will continue to deal with the same guys but they will be part of a larger, £3m turnover high tech print business. ISO14001 accredited, the relationship will bring improved facilities, the best digital and litho print equipment and numerous exciting finishing techniques that will all enhance the service, quality and turnaround times that you expect from Beacon.

### Who are Colourpoint?

Established in 1996 Colourpoint's services include high end digital capabilities alongside Heidelberg Litho machines and an array of finishing equipment from laminating to digital die-cutting, they are one of the most exciting print businesses in the area. More to follow on this shortly.

### Integration

We have now moved! (Contact details below). Whilst we 'bed in' to our new offices please bear with us and rest assured that we will do everything possible to ensure that the integration is as seamless as possible and that service levels are not affected. If during this time there is anything we can do to improve our customer service, please do not hesitate to contact us.
